

## Chinook SQL server

The screenshot shows the Microsoft SQL Server Enterprise Manager interface. The left pane displays the 'Object Explorer' with the 'Chinook' database selected. The central pane shows a query window with the following SQL code:

```
use Chinook;  
select * from Album;
```

The right pane shows the 'Properties' window for the current connection, displaying details such as 'Connection name', 'Connection details', and 'Aggregate status'. The bottom status bar indicates 'Query executed successfully.' and 'DESKTOP-Q80KTIH (14.0 RTM) DESKTOP-Q80KTIH-lophan ... Chinook 00:00:00 347 rows'.

## Chinook PostgreSQL

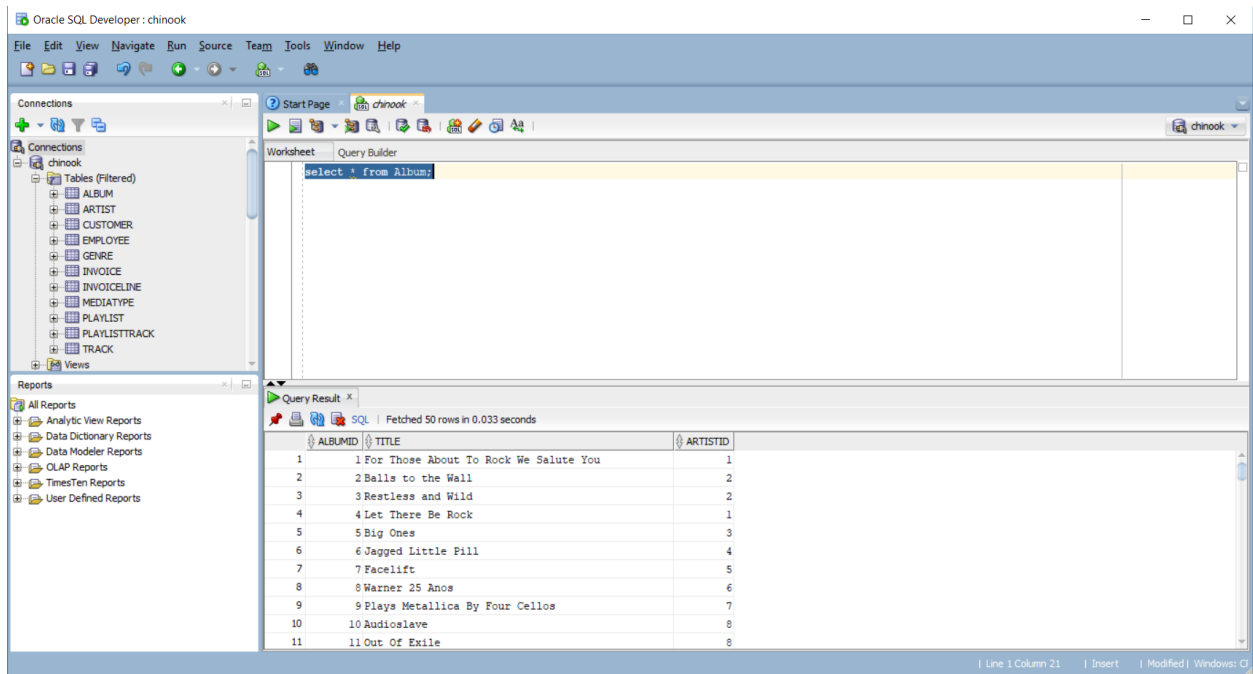

The screenshot shows the PostgreSQL Enterprise Manager interface. The left pane displays the 'Schemas' tree with the 'chinook' database selected. The central pane shows a query window with the following SQL code:

```
select * from "Album";
```

The right pane shows the 'Data Output' window, displaying the results of the query. The status bar indicates 'Query - chinook on postgres@PostgreSQL 10'.
